

Features

WOLF Roadster Triple Winder

Item No.: 457356

18" L x 8" W x 9" H

- Patented innovation - Every WOLF winder counts the precise number of rotations. All other winders estimate the number of rotations
- Lock-in dynamic cuff: Patented lock-in dynamic cuff 'locks' your timepiece into the rotator drum for a secure fit. Low density foam to accommodate all wrist sizes without putting pressure on your bracelet
- Rotation options: 10 second start delay. Can be set between 300 and 1,200 TPD (turns per day). Double the amount of TPD by selecting bi-directional setting
- Directional settings: Clockwise, counter clockwise and bi-directional
- Power reserve setting: 6 to 72 hours in increments of 6 hours power reserve setting to accommodate watches with a power reserve, giving the watch time to release stored energy before the winding program begins.
- Battery: Option to run on AC power (universal adapter included) or D-Cell/Lithium batteries (not included)
- Storage: 3 winding modules and 5pc watch storage and travel case
- Material: Vegan leather
